FINANCIAL ADVISOR OPPORTUNITIES

As an Edward Jones Financial Advisor, I'm now running a business, determining my own compensation and redefining my future. Here, I work in my community and plan my own day, every day. What's more, I'm backed by a highly successful financial services leader every step of the way.

This is an exciting, life-changing opportunity to:

- Get paid while you study and receive all the support necessary to pass industry-regulated exams
- Receive business-building and financial training
- Work one-on-one with clients to determine and help meet their financial and investment needs
- Identify and cultivate prospective clients from your own local office
- Earn commissions, bonuses, incentive travel and profit sharing

To learn more about our personal approach to business and joining the firm named No. 2 on *FORTUNE* magazine's 2010 "100 Best Companies to Work For" in America list, please contact me or visit www.edwardjones.com/whereibelong.
